Leadership and Cybersecurity

Cybersecurity tips for Healthcare Executives and Leaders

- Empower and support your IT security teams to develop and run an enterprise cyber risk management program
- Treat cyber risk as business risk
- Participate in your organization's cybersecurity exercise and plan review processes
- Create or update a Leadership Cybersecurity Incident Response Playbook. Make sure your leaders know what their role will be during an incident.
- Become a member of an information sharing organization. This will provide you up-to-date information about new and emerging threats and will help you ask the right questions.
- Go to <https://HealthSectorCouncil.org> and join the HSCC Joint Cybersecurity Working Group.

ABOUT THE HSCC JOINT CYBERSECURITY WORKING GROUP. The Healthcare and Public Health Sector Coordinating Council is a trust-community partnership convening companies, non-profits and industry associations across six subsectors with HHS, DHS, law enforcement, and intelligence community.

Our Mission: to identify cybersecurity risks to the security and resiliency of the sector, and develop planning and guidance for mitigating those risks.
